LIGHT LUNCH

Call us gullible, but no matter how much red meat, cream and alcohol make their way into our meals they always look healthier on a light dining table. Jens Denecke's first collection for Dune should go down well with intelligent eaters – by removing the corners from the birch plywood legs of his 'Bruns' dining table, he seems to have put it on a diet. And he's designed a set of slimline chairs to match. The only problem is how to ensure your table and chairs' slender curves don't outshine yours.

'Bruns' table, \$4,890, matching chairs, £1,185 each, from Dune, 88 Franklin Street, New York, tel: 1.212 925 6171, www.dune-ny.com
